

Address:

El Puente 3, Block 1, Apto 127
Calle Don José de Orbaneja s/n (no number)
Sitio De Calahonda
E-29 647 Mijas Costa, Spain

Driving directions from Malaga Airport to El Puente:

You sit in the car at the Malaga Airport. Put trip meter on zero. Drive in direction Cadiz. After about 2 km go slightly to the right in direction Algeciras. You are now driving along the new motorway. When the trip meter shows about 30 km you drive off at the Calahonda junction (km pole 201). There will soon be a toll post where you pay. (It is best always to use the toll road. Further down along the coast there is the old Autovia de Mediterráneo which is quite dangerous.)

After a short while you will reach a roundabout where you take the second exit which is headed Sitio de Calahonda. (The sign may be missing.) Soon there is a T-crossing. Drive to the right through the tunnel. Then there will be another roundabout. Take the third exit. After the STOP sign, turn to the right. You will see the restaurant Miel y Nata (Honey and Cream, which is quite a passable fast food restaurant. Restaurant Bruno in Cabo Pino ist really good.) Next to the restaurant there is a good Super Mercado.

You are now driving upwards all the time. You pass a gate with the description Puente 3 and Basureros (garbage bins) El Puente 3. Drive up the hill. You will soon be there.

Keep looking at the right for another sign at eye level 'Basureros El Puente 3'. Stop before that and park the car towards the building preferably by backing. It will then be easier to drive out when other cars are speeding by. Go to the gate Bloque 1*). Then turn to the left, take the second stairs from the left and go up until you see the door 127 FEDERLEY. Turn the key in the lock until the door opens. Then turn the key back into horizontal position and take the key out.

Remember to turn off the alarm when you enter. Should you have forgotten and the alarm goes on, just take it easy and turn it off. Always set the alarm on when you go out.

Remember to lock the outer door with the key, otherwise it will remain open.

The hot water boiler may be off. The boiler is situated in the big cupboard on the right-hand side in the big bedroom and the switch is on the right side of the boiler. Put it ON. It will take some time before the water is hot.

The roof terrace belongs to my apartment. The key is to be found in the drawer under the mirror in the dining-room.

When you leave for home, please put the key back in the lantern.

Have a nice holiday!

Lasse

+358-400- 413 622

Locally Ms Ritva Kajalainen takes care of the apartment

*) You may check the gate code with her.
